TO: Minerals File

FROM: Lynn Kunzler, Senior Reclamation Biologist 

RE: Site Inspection, William Day, Temple Strike Quarry, S/039/015, Sanpete County, Utah

Date of Inspection: May 20, 2003
Time of Inspection: 9:30 a.m.
Conditions: clear
Participants: John Blake, SITLA and Lynn Kunzler, DOGM

Purpose of Inspection: To document site conditions.

Getting to the Site:

This quarry is located approximately 1.5 miles south of the junction of US Highway 89 and State Road 137. The Quarry is visible from State Road 137 (approximately 1/3 mile to the east).

Observations:

Recently, SITLA had issued a state mineral lease to William Day that is adjacent to his current mining operations (private surface/minerals). Mr. Day has been instructed that he needs to amend his Notice with DOGM prior to conducting activities on the state lease. To date, the Division has not received an amendment for this operation.

This site was not operating during this inspection; however, there was equipment on site that had been operated recently. The disturbed area is estimated between 2-3 acres, and is still completely on private lands. There has been no activity or disturbance on the SITLA lease area.

Conclusions and Recommendations:

This site is in compliance with current permitting.
